

My Nature

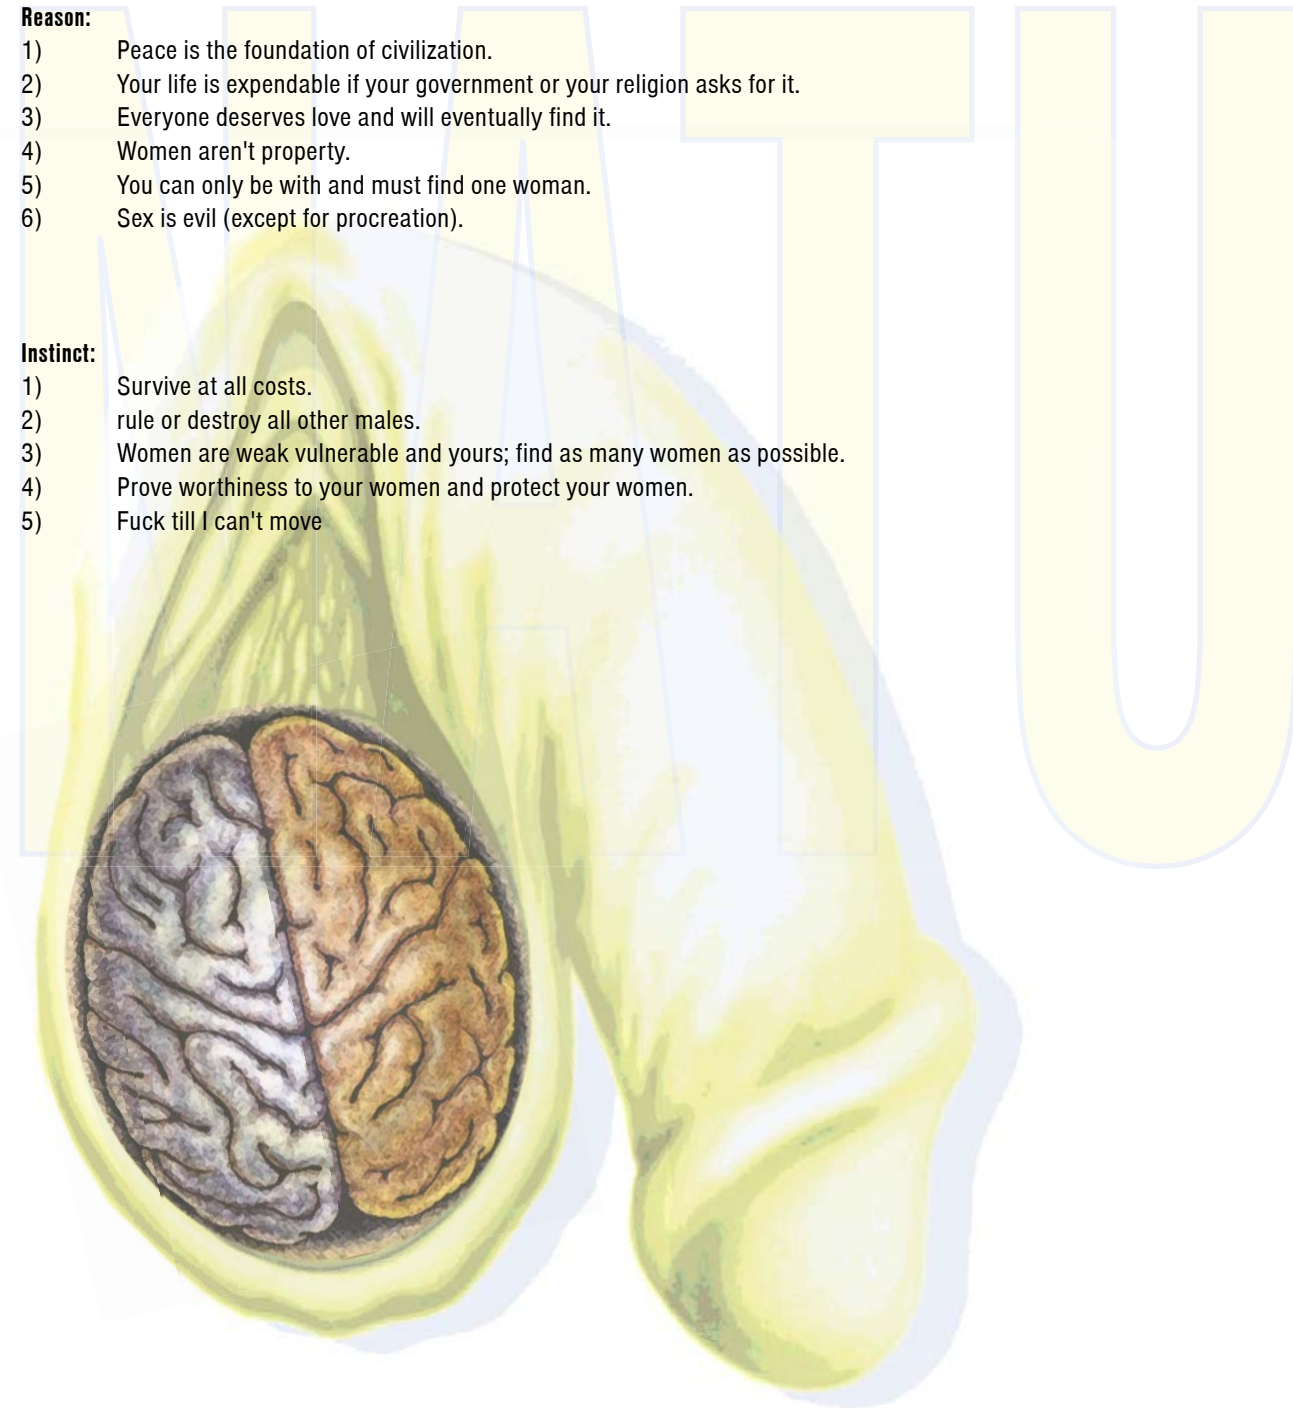

Things Innately Human Part 1: The Perpetual Civil War Inside Us All

Reason:

- 1) Peace is the foundation of civilization.
- 2) Your life is expendable if your government or your religion asks for it.
- 3) Everyone deserves love and will eventually find it.
- 4) Women aren't property.
- 5) You can only be with and must find one woman.
- 6) Sex is evil (except for procreation).

Instinct:

- 1) Survive at all costs.
- 2) rule or destroy all other males.
- 3) Women are weak vulnerable and yours; find as many women as possible.
- 4) Prove worthiness to your women and protect your women.
- 5) Fuck till I can't move
